## FEDERAL GOVERNMENT BEGINS ACTION IN ST. LOUIS COURT TO DISSOLVE GIANT OIL TRUST

### Attorney General Charges Conspiracy, Coercion, Intimidation, Rebating and Other Vicious Acts

### Wheels of Justice May Grind Exceeding Fine as John D. and Six Other High Officials are Made Parties De- fendant—Criminal Prosecutions Will Probably Follow.

#### TODAY'S ACTION AGAINST OIL TRUST.

- \* Petition filed in the U. S. Circuit court at St. Louis on Thursday, asking for:
- \* Dissolution of the Standard Oil company of New Jersey.
- \* Injunction against the Rockefeller, Rogers, Archbold, and others to prevent further violation of the Sherman anti-trust law.
- \* Injunction against subsidiary companies to prevent paying further dividends to the Standard Oil company of New Jersey.
- \* Injunctions against all individuals and companies connected with the Standard Oil company to prevent further combinations in restraint of trade.
- \* Future possible action:
- \* Criminal prosecution of the Rockefeller and other directors of the Standard Oil company for violation of the anti-trust law.

Washington, Nov. 15.—The federal government today began its long contemplated battle against the Standard Oil company in papers filed today in the United States Circuit court at St. Louis by direction of Attorney General Moody. The government seeks to have the gigantic trust dissolved.

In support of its plea, it presents an array of violations of the Sherman anti-trust law, involving conspiracy, coercion, intimidation, rebating and other vicious acts and practices.

It is the intention of President Roosevelt to make this proceeding the crowning achievement in the administration's trust busting accomplishments.

That the wheels of justice may grind exceedingly fine John D. Rockefeller and six other high officials of the Standard Oil trust are made parties defendant.

Criminal prosecutions will probably follow today's action. In a statement issued today announcing the commencement of the suit against the oil trust Attorney General Moody says:

The question whether any action of a different nature should be taken is reserved for future consideration. The controversy is now pending in the courts and any further comment by this department or by any one connected with it would obviously be improper and unfair.

The advisability of beginning criminal prosecutions against the trust officers was under earnest consideration by the Attorney General last week. The bill filed at St. Louis today reviews the history of the Standard Oil company from 1870 down to the present from the time when it was a "single conspiracy" to its formation as a holding company under the laws of New Jersey with an aggregate capital now of over \$150,000,000 and controlling more than 90 per cent of the oil business of the United States.

In reciting the remorseless operation of the trust, it is declared that even since last August the Standard has refused to transport oil of other companies except in such large quantities as to completely prevent independent producers and refiners of oil from using its service, and it is further charged that the trust has forced sixteen independent refiners now doing business in Pennsylvania and Ohio and procuring their crude oil through the Standard Oil company's pipe lines to sell all their export oil to the Standard, thereby eliminating their competition. It is declared that this contract was procured through threats.

It is charged that the Standard, through its influence, and by reason

of its large tonnage, sells substantially all the lubricating oils to the railroads of the United States; that the prices are from 50 to 100 per cent more than the prices which other manufacturers are willing to sell the same, and that these excessive prices are willingly paid by the railroads, in order that they may get the trust's business, that this is substantially the payment of rebates.

The bill points out where the trust has driven independent dealers, refiners and jobbers out of business many times.

It explains the operations of bogus independent companies; of the system of secret rebates and reductions; of division of territory and of discriminations.

It charges that the system of illegal favors obtained from the railroads of the country has brought about through the ownership and influence of the individual defendants and others acting in their interest, in the railroads of the United States.

The total value of all property controlled by the Standard except such as may have been purchased, is \$69,020,798, according to its own valuation. It is declared that upon this capital the Standard from 1882 to 1895, inclusive, paid \$512,940,004 of dividends and has created a large surplus. It is alleged that its property at the present time exceeds the value of \$200,000,000. Its annual dividends during the last nine years have run from 33 to 48 per cent, in addition to the surplus.

The statement issued by the attorney general today, is as follows:

"In June last, by direction of the President, Messrs. Kellogg and Morrison were appointed by me special assistant attorneys general to act with Assistant to the Attorney General Purdy to make an investigation of the relations of the Standard Oil company to the business of refining (transporting, distributing and selling oil throughout the United States, to ascertain all the facts and report whether or not in their opinion there has been a violation of the Sherman anti-trust law by the Standard, or the persons or corporations associated with it. The counsel have completed that duty and the report of their investigation has received careful consideration by the President and his cabinet."

The information available to the department tends to show:

"That the various corporations and limited partnerships under the control, in the manner hereinafter stated, of the Standard Oil company of New Jersey, produce transport and sell about 90 per cent of the refined oil produced, transported and sold in the United States for domestic use, and about the same proportion of refined oil exported from the United States."

"That this share of the business has been procured by a course of action which, beginning in 1870, has continued under the direction of the same persons, in the main, down to the present time;

"That these persons now surviving are John D. Rockefeller, Wm. Rockefeller, Henry H. Rogers, Henry M. Flagler, John D. Archbold, Oliver H. Payne, Chas. M. Pratt.

"That the design throughout of the persons having control of the enterprise has been to suppress competition in the production, transportation and sale of refined oil, and to obtain, as far as possible, a monopoly therein;

"That between 1870 and 1882 the design was effected through agreements made between many persons and corporations engaged in this business."

"That in 1882 the result aimed at was made more certain by vesting in nine trustees (including five of the above named persons) sufficient stock in the 29 corporations concerned to enable the trustees to control their operations in such a way that competition

## "GO HOME" SAYS PRESIDENT UNDERWOOD.

WARREN D. STONE.

New York, Nov. 15.—It is the general impression about the firemen's headquarters that a strike is a remote contingency. Grand Master Hannahan declared that, acting under the authority of the Erie firemen who by vote are conferring the necessary authority upon him and the Firemen's General Board, he would do everything in his power to bring about a settlement of the questions at issue in a peaceable way.

With reference to the statement made on behalf of the Erie railroad that the road had not officially rejected the firemen's demands, but was holding them off pending the annual readjustment of the wage scales of the other employees, who are believed to be entitled to earlier consideration, Mr. Hannahan declared that the last word from President Underwood of the Erie, was a letter of advice to the firemen "to go home and think the matter over."

To this the firemen replied that they had thought the matter over for a good many months and had reached the conclusion that they were entitled to the increase of 10 cents a

day, which has been asked. There being no further word from President Underwood, it is stated the poll of the road was ordered on the question as to whether or not in the further negotiations with the Erie the Grand Master of the Firemen's Brotherhood should be authorized to act for the Erie firemen along with the General Board. This authorization, which promises to be unanimous on all divisions of the road, gives Mr. Hannahan the power to order a strike. Every other measure of securing an adjustment will be employed before a general strike order is thought of.

Mr. Hannahan declares, however, that the men on the road are "in a radical frame of mind."

A committee of the Brotherhood

of Locomotive Engineers, headed by Chairman Watson, went to the Grand Central station yesterday afternoon to confer with Vice President and General Manager Smith of the New York Central and Hudson river railroad. It was reported that the men intended to ask for an eight hour day instead of the present ten hour day. The conference is expected to deal only with steam engineering.

Warren Stone, grand chief of the B. of L. E. had a long talk with Wm. H. Truesdale, president of the Lackawanna and before leaving the city he said he did not expect any strike.

Mr. Hannahan, grand chief of the B. of L. E. says he has been striving for weeks to arrive at a settlement with the Erie and that the men are entitled to as good pay as is given on other roads. He says Mr. Underwood's advice to go home and think it over could not be accepted.

## COUNTESS ANNA

### Will Take Care of Boni and Pay His Debts The Not Required to.

Paris, Nov. 15.—Madame Gould, as the former Countess de Castellane will hereafter be known, her title having ceased with the granting of the divorce, expressed the greatest satisfaction when she received the news at her residence on the Avenue Malakoff. Miss Helen Gould, who will remain here until after Christmas, was with her at the time. Madame Gould has no present intention of leaving Paris. Although the court denied the countess's application for an annuity, there is the best ground for the statement that Madame Gould will make a liberal allowance to the father of her children. Further it is again stated that as far as the creditors are concerned, the countess will settle all the legitimate bills for household expenses.

## NAVY'S NEEDS

### Uncle Sam Requires More Warships, Guns and Officers Says Rear Admiral Evans.

Chicago, Nov. 15.—The United States needs more warships, more guns and more naval officers, and needs them badly, according to Rear Admiral Robley D. Evans, who was the guest of honor at the fourth annual dinner of the Alumni Association of the United States Naval Academy at the Auditorium. Admiral Evans said: "At the present time we have nothing more than a respectable nucleus for a navy to adequately represent the United States."

## REVOLUTIONISTS ESCAPE WITH CASH

Marsaw, Mo. 15.—Armed revolutionists made an attack of dawn today on a railway station, killing the gendarmes on guard. A large sum of money was seized.

## AUTHORITIES FEAR AN UPRISING.

Helsingfors, Finland, Nov. 15.—The authorities in Finland fear a general uprising. The discovery has been made of supplies of arms and ammunition smuggled into the country. It is known that arms have been supplied to many peasants and the situation is regarded as critical.

## SIXTY-ONE DEAD

### Coroner Says Missing Children Will Swell List to over 100.

Chicago, Nov. 15.—The B. & O. officials today gave out the official list of dead in the wreck at Woodlille, Ind. This list contains 61 names of known victims, but does not take into account the many children who had no tickets and who perished. Coroner Carson will maintain that these children will swell the list of dead to 100 and over.

## WANTS RECEIVER

### Application for Appointment for Two Delmonico Restaurants Made by Executor Thieriot.

New York, Nov. 15.—Application for the appointment of a receiver for two Delmonico restaurants in this city was made by Robert Thieriot, executor of the will of Rosa Delmonico and Lorenzo C. Delmonico. Thieriot also brought action for an accounting against Josephine C. Delmonico, coadjutor of the two wills and who managed the two restaurants. Thieriot also declared that the solvency of the business is unquestioned, but that his action was to prevent a loose statement of the accounts of the two restaurants which he declared Josephine Delmonico intends to put into operation. The value of the property was given as \$500,000.

## PRESIDENT IS WELCOMED ON PANAMA ISTHMUS

### RECEIVED OVATION WHEN HE WENT ASHORE AT COLON THURSDAY.

## INSPECTS THE CANAL WORKS

### Moves Across Isthmus to City of Panama and Sees the Sights on the Way.

Colon, Nov. 15.—The first trip of an American president outside of the boundaries of the United States was successfully concluded when the battleship Louisiana, having on board President Roosevelt and his party, dropped anchor in the harbor of Colon. The Louisiana, which arrived ahead of schedule time, was conveyed by the Tennessee and the Washington, and the three vessels anchored about a mile from the dock during a heavy rain fall.

President Amador and other officials of the republic arrived in the evening from Panama and were received on board the Louisiana. The greetings were cordial. President Amador's party were accompanied by Chief Engineer Stevens, Commissioner Shonts, Executive Secretary Read, and Mr. Squiers, the American minister. The president invited the local newspaper correspondents to come on board the Louisiana, and his invitation was accepted by the editor of the Colon Independent, the editor of the Jamaica Gleaner and the representative of a press association. The president said the voyage down had been pleasant and uneventful. He expressed himself as gratified at the welcome being prepared for him on shore, and said he intended to see everything possible for himself in connection with the canal during his three days' stay on the isthmus. The president spoke at length with Mr. Delisher, editor of The Gleaner, regarding the question of Jamaican labor here and promised to look into the matter thoroughly.

Extensive precautions have been taken to protect President Roosevelt during his three days' visit on the isthmus, and it is reported that a number of known anarchists have been arrested here and at Panama. All steamers arriving at the isthmus are inspected and suspicious characters have been imprisoned and will be held in custody until President Roosevelt departs.

Thursday morning President Roosevelt came ashore and was extended a cordial welcome to the city. The president in reply, made a short address. Boarding a train later, the president and party started for Panama. The run across the isthmus was made on a slow train in order to give the distinguished party an opportunity to see the canal works. The presidential train, after passing through the zone, will go to La Boca, where President Roosevelt will inspect the Pacific entrance of the canal. At Panama, President Amador and his party will separate from President Roosevelt and his party. The latter will cruise in Panama bay, inspecting the various islands and probably landing at Taboza to examine the sanitariums erected by the isthmian canal commission. Mr. Roosevelt and suite will then return to the mainland and breakfast with Commissioner Shonts, Executive Secretary Read and Chief Engineer Stevens.

According to the program a procession of government officials and prominent citizens, escorted by 200 young men mounted, will proceed from the cathedral to the Tivoli hotel and receive President Roosevelt there, when the party will start for Panama with the mounted escort in advance, preceding the carriage of Presidents Roosevelt and Amador and the rest of the procession, which will proceed to the government palace. The party will stop in front of the cathedral where a platform has been erected for the two presidents, from which President Amador will deliver an address of welcome. After his speech all the school children of the capital will be paraded in front of the platform and sing the national anthem. The same ceremony will be observed in escorting President Roosevelt back to the hotel.

The quartet of "The Messiah" was given entire by megaphone to an audience of over a thousand persons in Westminster England the other night. It was considered a complete musical success.

Columbus, Nov. 15.—The supreme court today allowed the convicted Toledo Ice Trust men to be paroled in color.

Boston, Nov. 15.—The long anticipated first trial of the five convicted men in the case of the Boston Police and the Boston Police Association was held today.

## PLATTS HAVE SIGNED A PACT OF SEPARATION

### NEW YORK SENATOR AND YOUNG WIFE HAVE REACHED AN AGREEMENT.

## BRIEF STATEMENT IS ISSUED

### Rumors of Improper Acts on Part of Either Pronounced Absolutely False Today.

New York, Nov. 15.—Senator Thomas C. Platt and his wife, formerly Mrs. Lillian T. Janeway, have agreed to separate. The law firm of Marsh, Winslow & Weaver, acting for Mrs. Platt, made the announcement. The deed was signed by both, but not in the presence of each other, and is as follows:

"Owing to unhappy differences between them the undersigned have this day executed a deed of separation. While making such announcement we wish to assert with all possible emphasis the falsity of the scandalous articles which have frequently appeared in the public prints. While there have been a series of dif-

ferences and disputes which seem to make a separation advisable, there has been no conduct upon the part of either which could possibly be the foundation for divorce action. No question of infidelity of either to the other has ever been raised. Statements which have charged violent and disgraceful scenes between us are absolutely false."

Mrs. Platt is at the Tioga Lodge in Highland Mills, and Senator Platt is staying at his apartments in this city. So feeble is he that no one was allowed to see him. Besides the formal announcement of the separation made through Mrs. Platt's counsel, no member of the Platt family would make any comment on the agreement.

What provision has been made by the senator for his wife's future support could not be learned from any member of the family, but it is said that Mrs. Platt will have the use of the Tioga estate and that she will receive an allowance of \$10,000 a year from her husband.

## UNCLE SAM'S WEALTH IS HERE ESTIMATED

### Census Bureau Figures Total Wealth of Country in 1904 at Over Hundred Billion Dollars.

Washington, Nov. 15.—The United States census bureau estimated the total wealth of the country in 1904, to be \$106,551,415,099. This shows an increase in wealth over the estimates for 1900, of nearly 21 per cent and of 64 per cent over the estimate for 1890, when the total wealth was \$65,037,091,197. In 1904, the value of the real property taxed was \$55,607,719,435; real property not taxed \$6,569,327,174; livestock \$4,073,791,763; railroads and telegraph lines \$1,244,752,009; materials and products of manufacturers \$7,499,256,000; furniture, carriages, etc. \$3,700,000,000; manufacturing machinery, etc. \$3,297,754,156; gold and silver coin and bullion \$2,002,433,272; clothing \$2,500,000,000.

## QUAIL IN GREAT NUMBERS.

Coshocton, O., Nov. 15.—The town is filled with hunters owing to the many reports which have gone out concerning the abundance of quail in the country in this vicinity. They have been coming in on all trains for two days. Rabbits are also very plentiful. The condition is attributed to the fact that the freeze out two years ago helped the game to quite an extent.

tution between them was suppressed: "That this plan was acted upon until it was declared unlawful by the supreme court of Ohio, in an action against the Standard Oil company of Ohio, one of said corporations, in 1892. "That during the seven years following, the same individual defendants, by a majority of the liquidating trustees were pretending to liquidate the trust, but as a matter of fact, were managing all of the corporations in the same way and exercising the same control over them.

That the individual defendants in 1899, increased the stock of the Standard from \$10,000,000 to \$120,000,000.

"That said company was then producing and selling corporation and they added to its corporate powers the power of purchasing stock in other companies and practically all of the powers exercised by the trustees under the unlawful trust agreement of 1882:

"That the Standard Oil company, of New Jersey, then taking the place of the trustees, acquired all of the corporations theretofore held and controlled by the trustees, paying therefor by the issue of its own shares in exchange;

"That the president of the board of trustees became the president of the Standard Oil company of New Jersey, and the same persons (the individual defendant's) who had directed the business of the trust, then assumed the directions of the business of the Standard Oil company of New Jersey, and have ever since continued it;

"That the purpose and effect of the use of the Standard Oil company of New Jersey, as a holding company was precisely the same as the purpose and effect of the appointment of the trustee hereinbefore referred to, namely, to suppress competition between the corporations and limited partnerships whose stock was first held by the trustees and then by the Standard Oil company of New Jersey;

"That by the foregoing methods, aided by the establishment of railroad rates for transportation which discriminated in favor of the corporations whose stock was held by the holding company that company has been enabled to obtain a monopoly of the sale of refined oil, with the result that the prices to the consumer are very much higher than within territory competition still exists.

"It is believed that these facts justify and require action by the United States in the courts.

"Accordingly, a petition in equity, under the provisions of the Sherman act, has this day been filed against the Standard Oil company of New Jersey, and seventy other corporations and limited partnerships and the seven individual defendants before named, in the eighth judicial circuit at St. Louis, Mo., to have the said combination adjudged and decreed to be unlawful, and that the holding and control by the Standard Oil company of New Jersey, of the stocks of the seventy corporations be declared unlawful and the said corporations be prohibited from declaring or paying any dividend to the Standard Oil company of New Jersey and be enjoined from entering into or performing any contract or combination to restrain trade and commerce or to monopolize trade in the future."

## ROCKEFELLER NEED

### "NOT BE AFRAID"

—ALEX. McDONALD.

Cincinnati, O., Nov. 15—"John D. Rockefeller has no need to fear indictments against him in Findlay or in any other place," said Alexander McDonald, vice president of the Standard Oil company today. "He has had nothing to do with the company for ten years, and I don't believe he has stepped into the main office of the corporation in all that time. I see no reason why he has not a valid alibi," said he with a smile. "All he does is to draw his dividends. I don't believe the Standard interests will knock other stocks on Wall street as it has been reputed; they would. I haven't the least doubt but they could if they wanted to however. In regard to the bribery charges of Juror C. O. Myers in Findlay case, I don't believe it is so."

## CLOSED SEASON FOR STANDARD OIL GAME

Findlay, O., Nov. 15—This is the closed season for Standard oil game in Cleveland, according to a message this morning from Deputy Sheriff Johns who went to Cleveland with warrants for the arrest of Villas, Robinson and McIntosh, officials of the Standard Oil, who were indicted with Rockefeller yesterday by the grand jury for conspiracy. Johns failed to bag his game. He said they had flown. Officers will keep after them. Prosecutor David said this morning: "If it is true that these men have left the state to avoid service of these warrants and if their whereabouts can be ascertained an attempt will be made to extradite them as in

the case of any criminal or violator of the law."

The action of the Ohio directors is regarded by the state as an additional piece of evidence against them.

"Men don't usually run away unless they have cause or reason," commented David.

Johns was instructed to have the Cuyahoga county sheriff serve the warrants when the men returned to the city.

## STANDARD OIL MEN CAN NOT PLEAD BY PROXY AT FINDLAY

Findlay, O., Nov. 15—Prosecutor David today objected to overtures of counsel for the Standard to have three Cleveland directors indicted yesterday plead by proxy. "They must learn to respect the mandates of the courts the same as other men have to do," said the prosecutor. "They must appear in person."

His remark was addressed to Attorney Tolles of Cleveland, who talked with him by telephone. David refuses to show them favors largely because of the directors' avoidance of summons servers in the past.

## WITH WARRANTS

For Rockefeller and Others  
Mr. Johns of Findlay is  
In Cleveland.

Cleveland, O., Nov. 15.—Deputy Sheriff A. S. Johns of Hancock county, arrived here and made public the names of the three persons indicted at Findlay, in addition to the indictment against John D. Rockefeller. Johns has warrants for the arrest of M. G. Villas, treasurer of the Standard Oil company of Ohio; J. M. Robertson, secretary, and S. P. McIntosh, a director. The deputy sheriff said he had been instructed by the officials at Findlay to remain here until the warrants are served and the defendants named in the indictments upon which the warrants were issued will be taken to Findlay in person. He said that it was his understanding that none of the parties, including Mr. Rockefeller, would be permitted to enter appearance by attorney.

## INVESTIGATION

By the Indiana Railroad Commission Into the Woodville Horror is Promised.

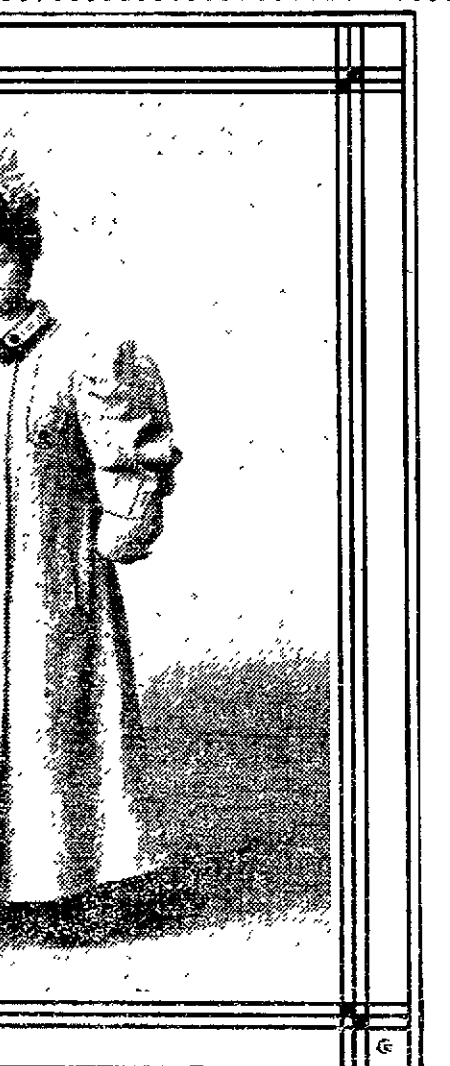

Indianapolis, Nov. 15.—On account of the large number of deaths and the magnitude of the calamity, the State Railroad Commission has decided to go to Woodville, near Valparaiso, to investigate the wreck of the immigrant train on the E. and O. railroad, which occurred there last Monday.

The law makes it the duty of the Railroad Commission to investigate all railroad wrecks as well as any physical defects in railroad systems or railroad rates. The commission's decision was made yesterday after the members had given the matter proper consideration. Next Wednesday was decided upon as the time for beginning the investigation, which is expected to last several days.

The commission will make its headquarters at Woodville during the investigation, so that it may visit the scene of the accident at the time the explanations of the trainmen, railroad officials and all others who could have been connected with the wreck are made.

THE FEMININE TYPE OF OVERCOAT.

The overcoat is just as necessary to the business woman's comfort and well being as it is to the business man. While the same ideas of warmth and protection are expressed in both, naturally one looks for a trifle more elaboration both in cut and trimming in the woman's garment. Plain and practical but yet not aggressively so, is the smart model that forms the subject of illustration. The material is one of the new Kil-marnock tweeds that show a plaided surface on both sides, the plaids varying sufficiently in size and coloring to make for a pleasant contrast. Gray and brown checks are prettily mingled in the cloth here, and a broad open box is defined in a violet hairline that divides the checks into open squares. The coat is of scant double-breasted pattern, the back fitting loosely and increasing in fullness below the shoulders. A yoke effect that comes but halfway to the center back and front is scalloped and piped with velvet, and gives a faint suggestion of an Empire design. The sleeve is extremely loose and full pleated above the wrist and caught into a flat band cuff. Seal brown velvet is used throughout, the buttons being centered with it, and the checked material used for an outer rim. The collar is altogether of the velvet, with a flat band of the check applied; and so shaped that it may be turned up around the throat should the weather so demand. The little turban is likewise in seal brown velvet, and with a long plume effect worked out in plisse white ribbon at the side.

## FARMERS' UNION

Desires Affiliation With the American Federation of Labor.

Minneapolis, Minn., Nov. 15.—A warm welcome to the representatives of the newly formed Farmers' union, known as the American Society of Equity, an invitation from San Juan, Porto Rico, to meet there next year; a resolution by the Port Rican delegate, Santiago Iglesias, calling for aid in securing more political freedom for his country and a fiery denunciation of all branches of the American judiciary, constituted the most important events of the day's session of the American Federation of Labor convention. There were nine representatives of the American Society of Equity present, and they were given the privilege of the floor. W. West Tubbs, national secretary of the society, spoke briefly, outlining the policy of the Farmers' union and expressing great hopes that it might become affiliated with the American Federation of Labor.

## QUAIL IN GREAT NUMBERS.

Coshocton, O., Nov. 15.—The town is filled with hunters owing to the many reports which have gone out concerning the abundance of quail in the country in this vicinity. They have been coming in on all trains for two days. Rabbits are also very plentiful. The condition is attributed to the fact that the freeze out two years ago helped the game to quite an extent.

STANDARD OIL COMPANY

## GIANT OIL TRUST

(Continued from Page 1.)  
tution between them was suppressed: "That this plan was acted upon until it was declared unlawful by the supreme court of Ohio, in an action against the Standard Oil company of Ohio, one of said corporations, in 1892.  
"That during the seven years following, the same individual defendants, by a majority of the liquidating trustees were pretending to liquidate the trust, but as a matter of fact, were managing all of the corporations in the same way and exercising the same control over them.

That the individual defendants in 1899, increased the stock of the Standard from \$10,000,000 to \$110,000,000.

"That said company was then producing and selling corporation and they added to its corporate powers the power of purchasing stock in other companies and practically all of the powers exercised by the trustees under the unlawful trust agreement of 1882;

"That the Standard Oil company, of New Jersey, then taking the place of the trustees, acquired all of the corporations theretofore held and controlled by the trustees, paying therefor by the issue of its own shares in exchange;

"That the president of the board of trustees became the president of the Standard Oil company of New Jersey, and the same persons (the individual defendant's) who had directed the business of the trust, then assumed the directions of the business of the Standard Oil company of New Jersey, and have ever since continued it;

"That the purpose and effect of the use of the Standard Oil company of New Jersey, as a holding company was precisely the same as the purpose and effect of the appointment of the trustee heretofore referred to, namely, to suppress competition between the corporations and limited partnerships whose stock was first held by the trustees and then by the Standard Oil company of New Jersey;

"That by the foregoing methods, aided by the establishment of railroad rates for transportation which discriminated in favor of the corporations whose stock was held by the holding company that company has been enabled to obtain a monopoly of the sale of refined oil, with the result that the prices to the consumer are very much higher than within territory competition still exists.

"It is believed that these facts justify and require action by the United States in the courts.

"Accordingly, a petition in equity, under the provisions of the Sherman act, has this day been filed against the Standard Oil company of New Jersey, and seventy other corporations and limited partnerships and the seven individual defendants before named, in the eighth judicial circuit at St. Louis, Mo., to have the said combination adjudged and decreed to be unlawful, and that the holding and control by the Standard Oil company of New Jersey, of the stocks of the seventy corporations be declared unlawful and the said corporations be prohibited from declaring or paying any dividend to the Standard Oil company of New Jersey and be enjoined from entering into or performing any contract or combination to restrain trade and commerce or to monopolize trade in the future."

## ROCKEFELLER NEED

### "NOT BE AFRAID"

—ALEX. McDONALD.

Cincinnati, O., Nov. 15.—"John D. Rockefeller has no need to fear indictments against him in Findlay or in any other place," said Alexander McDonald, vice president of the Standard Oil company today. "He has had nothing to do with the company for ten years, and I don't believe he has stepped into the main office of the corporation in all that time. I see no reason why he has not a valid alibi," said he with a smile. "All he does is to draw his dividends. I don't believe the Standard interests will knock other stocks on Wall street as it has been reputed they would. I haven't the least doubt but they could if they wanted to however. In regard to the bribery charges of Juror C. O. Myers in Findlay case, I don't believe it is so."

## CLOSED SEASON FOR STANDARD OIL GAME

Findlay, O., Nov. 15.—This is the closed season for Standard oil game in Cleveland, according to a message this morning from Deputy Sheriff Johns who went to Cleveland with warrants for the arrest of Vilas, Robertson and McIntosh, officials of the Standard Oil, who were indicted with Rockefeller yesterday by the grand jury for conspiracy. Johns failed to bag his game. He said they had flown. Officers will keep after them.

Prosecutor David said this morning: "If it is true that these men have left the state to avoid service of these warrants and if their whereabouts can be ascertained an attempt will be made to extradite them as in

the case of any criminal or violator of the law."

The action of the Ohio directors is regarded by the state as an additional piece of evidence against them.

"Men don't usually run away unless they have cause or reason," commented David.

Johns was instructed to have the Cuyahoga county sheriff serve the warrants when the men returned to the city.

## STANDARD OIL MEN CAN NOT PLEAD BY PROXY AT FINDLAY

Findlay, O., Nov. 15.—Prosecutor David today objected to overtures of counsel for the Standard to have three Cleveland directors indicted yesterday plead by proxy. "They must learn to respect the mandates of the courts the same as other men have to do," said the prosecutor. "They must appear in person."

His remark was addressed to Attorney Tolles of Cleveland, who talked with him by telephone. David refuses to show them favors largely because of the directors' avoidance of summons servers in the past.

## WITH WARRANTS

For Rockefeller and Others  
Mr. Johns of Findlay is  
In Cleveland.

Cleveland, O., Nov. 15.—Deputy Sheriff A. S. Johns of Hancock county, arrived here and made public the names of the three persons indicted at Findlay, in addition to the indictment against John D. Rockefeller. Johns has warrants for the arrest of M. G. Vilas, treasurer of the Standard Oil company of Ohio; J. M. Robertson, secretary, and R. P. McIntosh, a director. The deputy sheriff said he had been instructed by the officials at Findlay to remain here until the warrants are served and the defendants named in the indictments upon which the warrants were issued will be taken to Findlay in person. He said that it was his understanding that none of the parties, including Mr. Rockefeller, would be permitted to enter appearance by attorney.

By the Indiana Railroad Commission Into the Woodville Horror is Promised.

Indianapolis, Nov. 15.—On account of the large number of deaths and the magnitude of the calamity, the State Railroad Commission has decided to go to Woodville, near Valparaiso, to investigate the wreck of the immigrant train on the B. and O. railroad, which occurred there last Monday.

The law makes it the duty of the Railroad Commission to investigate all railroad wrecks as well as any physical defect in railroad systems or railroad rates. The commission's decision was made yesterday after the members had given the matter proper consideration. Next Wednesday was decided upon as the time for beginning the investigation, which is expected to last several days.

The commission will make its headquarters at Woodville during the investigation, so that it may visit the scene of the accident at the time the explanations of the trainmen, railroad officials and all others who could have been connected with the wreck are made.

SHE CANNOT SLEEP  
SO SUES FOR DAMAGES

Cleveland, Nov. 15.—Alleging that she is continually haunted by visions of a railroad wreck occurring at Lo-

rain last August, when a train on which she was a passenger crashed against a Nickel Plate freight, Mrs. Silver Naugle has begun an action for \$10,000 damages against the company. She says that visions of the wreck prevent her from sleeping and that her eyesight is greatly weakened.

**A PLANT WEATHER PROPHECY.**

(State Journal.)

Are we finally to drop our scientific weather prediction to the level of watching a pig with a straw in its mouth or a muskrat building his winter quarters? It seems so. And yet the new method has the benefit of scientific authority—is even the result of most persistent observation and research for years.

A scientist in Austria has discovered that the pater noster pea is a weather prophet, by the side of whose predictions the forecasts by "old probabilities" are reckless guesses. This plant is like the sensitive plant, and how itself affected by every sort of meteorological disturbance. There is nothing in the change of terrestrial conditions that this little plant will not fortell.

The quiver of its leaves will tell all about the winds, their force and direction, for 40 or 50 miles around; the delicate motion of the leaf nerves upward or downward, will indicate the rains or storms two or three days ahead; the midribs of the leaves tell of floods, cloudbursts, electrical disturbances, violent phenomena of all kinds, three weeks ahead, over an area of 4,000 miles.

This plant keeps tally on the sun-spots, earthquakes, volcanic eruptions and all of the earth's fatal paroxysms. It will reveal the kind of weather prevailing in mid-ocean.

This scientist—Herr Novack, has been working under the auspices of the Austrian government, which fact raises these announcements above the pale of charlatanny, where one might naturally from their apparently extravagant claims, places them. The idea seems so preposterous that a little plant will tell all these wonderful things—that it will disclose all the conditions of the weather two to seven days in advance, the great convulsions of nature from one to 28 days ahead, and seldom fail in the truth of its prognostications; but we have it from a scientist that it will be so.

This will do away with the weather bureau, and everybody will have a pater noster pea at his home.

**CARBON PAPER**

Used in Preparing His Father's Speeches Poisoned the Son of Congressman Littlefield.

Rockland, Maine, Nov. 15.—Charles E. Little, Jr., son of Congressman Charles E. Little, is critically ill from a peculiar cause. Doctors despair for his life. His illness is a direct result of the late campaign, in which his father was a candidate for re-election, and his employer, Governor-elect Hughes, for whom he is private secretary, fought successfully for office.

Mr. Littlefield was delegated to prepare the campaign speeches to be delivered during the political battle. In doing so he became poisoned by the handling of carbon paper used for the multiplying of copies of the speeches. At first no serious inconvenience attended the poisoning. It was looked upon as merely an incidental and local ailment. As the poison worked into his system, however, he and his relatives became alarmed and recourse was had to physicians. It is declared that the poison has permeated practically his entire system.

**CIGARETTES**

Booze and a Blow on the Head Are Blamed by Bigamist Field for His Excess of Wives.

Cleveland, O., Nov. 15.—George Field, bigamist, on the witness stand yesterday afternoon, admitted having four wives.

Last spring he married Ethel Burckell, Wife No. 4, in Detroit, he said, and lived with her three or four days. This was about a month before May Madigan, Wife No. 3, caused his arrest on the charge of perjury in procuring a marriage license.

He could not tell, he said, whether he married Alice Brod', Wife No. 2, with whom he lived only one day, in a house or church, but believed it must have been in Cleveland.

Field said that he smoked from 15 to 25 cigarettes a day, starting in with 20 on his first day, when only 14 years old. He drank all kinds of liquor, he said, and got drunk every time he had the money.

Field said that when 14 years old he was struck on the head with a monkey wrench, and that the injury still affects him. He blames intemperance and the blow for his present predicament.

Trial Package Mailed Free to All Who Send Name and Address.

"I tried the sample of your cure you sent to me. I used it and there bought a 50c box. The results were immediate and surprising to me, I assure you. I had been to a dozen of the best doctors and paid much money to them with no results whatever. I had this affliction for 20 years. I was in a hospital for a long time, and I left it physically broken down. I have been so bad for months at a time as to be unable to walk. Having a friend who lost his life by an operation, I desisted from ever having that experiment tried on me. I owe you a debt of gratitude. I believe that piles would be banished from humanity and become an unknown thing, were every one afflicted with them to but spend from 50¢ to \$1.00 for Pyramid Pile Cure. Its speedy action also makes it extremely favorable for impatient people. I am yours sincerely, George H. Bartlett, Mattapan, Mass."

Instant relief can be gotten by using the marvelous Pyramid Pile Cure. It immediately reduces all congestion and swelling, heals all sores, ulcers and irritated parts.

The moment you start to use it your suffering ends and the cure of your dread disease is in sight.

The Pyramid Pile Cure frequently renders a surgical operation unnecessary. Don't subject yourself to this except as a very last resort.

The Pyramid Pile Cure is put up in the form of "easy to use" specially made suppositories. They are soothing, painless, instant and certain.

A trial treatment will be sent you at once by mail, in plain, sealed wrapper, without a cent of expense to you, if you send your name and address to Pyramid Drug Co., 60 Pyramid Building, Marshall, Mich.

After you receive the sample, you can get a regular size package of Pyramid Pile Cure at your druggist's for 50 cents, or if he hasn't it, send us the money and we will send it to you.

**MASONIC LECTURE.**

To the members of Newark and Acme lodges, F. & A. M. and other Master Masons of Newark and vicinity.—Bro. Isaac Alcazar, a native of Jerusalem, and son of a Rabbi, will deliver an illustrated lecture on Historical and Traditional Masonry at Masonic Hall in Newark, on Friday evening, Nov. 16, at 7:45. No charge of admission, but there will be a free will offering at the close of the lecture. You are urged to be present and learn something beneficial to yourself and the order.

**WHERE IS PEARY?**

Inquiries by Wire to Different Points Elicit No New Information About Him.

Halifax, N. S., Nov. 15.—Inquiries by wire sent to different points elicit no new information as to the present location of Commander Peary's Arctic steamer Roosevelt, and it is impossible to tell definitely whether the steamer has yet left Battle Harbor, Labrador, as the nearest telegraph office is at Chateau Bay, and at this late date communication by fishing boats between the two places is practically suspended for the winter. From Battle Harbor, the explorer announced his intention to proceed direct to North Sydney, terminate his voyage there, and it may be possible he may come through the straits of Belle Isle and the Gulf of St. Lawrence instead of passing outside of the Island of Newfoundland.

New York City has 19 colleges within its borders.

**STATE NEWS**

Boston, Nov. 15.—A settlement by agreement of the suit brought by Colonel George C. Rankin of Washington, receiver of the Citizens' National Bank of Oberlin, O., against B. Newton of Brookline, to recover on a note of \$10,000 made by the defendant for accommodation of Mrs. Cassie Chadwick, was announced when the case was to have been called in the United States circuit court here. It is stated that the settlement involves the payment of \$400 by Newton. The note in question had been indorsed by Mrs. Chadwick to the Oberlin bank. Mr. Newton's attempt to recover the value of this note led to the disclosures which resulted in making public the sensational business proceedings of Mrs. Chadwick.

**Canton State Bank Case.**

Washington, Nov. 15.—The supreme court of the United States heard argument in the cases in which the officers of the State Bank at Canton, O., are under prosecution on the charge of wrecking that institution. The constitutionality of the state law under which they are being prosecuted is attacked and the court advanced the hearing of the cases because this is the only statute in Ohio governing in such matters.

**Incendiary Fires.**

Bryan, O., Nov. 15.—State Fire Marshal Creamer and Deputy Marshal Fox are here pushing an inquiry before the grand jury regarding incendiary fires in Williams county. They have with them a prisoner, Freeman Ury, who was arrested in Indiana two weeks ago and taken to Findlay.

**Million Women Use It.**

More than a million women have used Mrs. Miller's Specific, and no matter where you live she can refer you to ladies in your own locality who can and will tell any sufferer that this marvelous remedy really cures women's diseases. Despite the fact that Mrs. Miller's business is very extensive, she is always willing to give aid and advice to every suffering woman who writes to her. She is a generous, good woman and has decided to give away to women who have never used her medicine, \$10,000.00 worth of absolutely FREE. Every woman suffering with leucorrhea or whitish discharges, ulcerations, displacements or falling of the womb, profuse, scanty or painful periods, bearing-down feelings, nervousness, creeping feelings up the spine, melancholy, desire to cry, hot flashes, weakness, or piles from any cause, should sit right down and send her name and address to Mrs. Cora B. Miller, Box 227, Kokomo, Ind., and receive by mail, (free of charge in plain wrapper) a 50-cent box of her marvelous Specific; also, her valuable book, "How I Cure Female Diseases and Piles."

Remember, this offer will not last long, for thousands and thousands of women who are suffering will take advantage of this generous means of getting cured. So if you are ailing, do not suffer another day, but send your name and address to Mrs. Miller for the book and medicine before the \$10,000.00 worth is all gone.

**GIANT'S BODY**

Believed to be Baxter's Buried Ten Years Ago and Insurance Money Won.

St. Paul, Minn., Nov. 15.—Mourning as dead for 10 years following the interment of a body supposed to be his John Baxter, formerly an engineer at the Central High school, has returned to Minneapolis. A strange quest for gold across the seas led him to forget home, friends and all. Baxter's return has cleared up a mystery that for a decade has puzzled the members of his family, the police and the officials of an insurance company. He was proved legally dead and a body thought to be his was buried with the usual rites. An insurance company failed just in time to avoid paying for the policy on his life. His return has developed another mystery. Whose was the body buried as Baxter's 10 years ago?

What tale of privation, of hunger, of misery, even, it may be, of murder, was covered over by the earth that hid that body in the grave? The body buried was found in the woods of Northern Minnesota. It was that of a man nearly six feet four inches tall. The description as telegraphed by the police corresponded with that of Baxter. A few trinkets, such as knife, pocketbooks

**Found Dead in Hotel.**

Canton, O., Nov. 15.—Albert P. Fetzter, 50, of the firm of Fetzter & Spies, wholesale dealers in shoes and harness, at Cleveland, was found dead in the McKinley hotel here, presumably from heart trouble.

**Strike Declared.**

Cleveland, O., Nov. 15.—At a meeting of the Firemen of the Erie railroad here, it was unanimously voted to strike to enforce their demands for increased pay and shorter hours. There were 240 men at the meeting.

**Damage by Snow Storm.**

Chardon, O., Nov. 15.—All steam and electric trains in this vicinity are delayed by a snow storm. The snow is so heavy that it has done severe damage to telephone and telegraph lines and trees.

**Killed by Train.**

Ironton, O., Nov. 15.—William Anderson, switchman for the Chesapeake and Ohio, had his head cut off by a fast train at Russell, Ky.

**Folk's Anti-Lobby Bill.**

Jefferson City, Mo., Nov. 15.—Governor Folk has drafted a stringent anti-lobby law which will be introduced on the first day of the next session of legislature. If enacted into law, not even the representatives of state institutions will be permitted on the floor of either branch of the general assembly.

**DEMOCRATIC LEAGUE**

To Foster, Disseminate and Give Effect to Democratic Principles is Organized in Boston.

Boston, Nov. 15.—To foster, disseminate and give effect to Democratic principles, without favoring any presidential candidate or any national issues for at least a year, are the purposes of the New England Democratic Progressive league formed here by representatives from five New England states, Vermont being unrepresented. Temporary organization was perfected. Alexander Troup of New Haven was chosen president and George Fred Williams of Massachusetts chairman of the executive committee.

**Mrs. Cora B. Miller Makes a Fortune**

Says She Will Now Give Away \$10,000 Worth of Medicine to Women.

Until a few years ago Mrs. Cora B. Miller lived in a manner similar to that of thousands of other very poor women of the average small town and village. She now resides in her own palatial brown-stone residence, and is considered one of the most successful business women in the United States.

Several years ago Mrs. Miller learned of a mild and simple preparation that would readily cure female diseases and piles. After curing herself and many of her friends she was besieged by so many women needing the treatment that she decided to furnish it to those who could not call for it. She started with only a few dollars' capital, and the remedy, possessing true and wonderful merit, producing marvelous cures when doctors' remedies really failed, the demand grew so rapidly she was several times compelled to seek larger quarters. She now occupies one of the city's largest office buildings, which she owns, and almost one hundred clerks and stenographers are required to assist in this great business.

More than a million women have used Mrs. Miller's Specific, and no matter where you live she can refer you to ladies in your own locality who can and will tell any sufferer that this marvelous remedy really cures women's diseases. Despite the fact that Mrs. Miller's business is very extensive, she is always willing to give aid and advice to every suffering woman who writes to her. She is a generous, good woman and has decided to give away to women who have never used her medicine, \$10,000.00 worth of absolutely FREE. **SOAP AGENT IN TROUBLE.**

New Lexington, O., Nov. 15.—B. S. Livingston was found guilty of obtaining money under false pretense and was sentenced to 30 days in the Columbus workhouse and a fine of \$50 and costs. Livingston represented himself as a field agent for a soap company, selling territories to agents for a soap concern, selling territories for agents. Mrs. Jerusia Wilson aged 74, was one of his victims. He sold the same territory to several different persons. He will likely take the case up to a higher tribunal.

**The Use of Malt Extract in Food**

**Cooked Wheat Treated With It and Then Baked Crisp and Brown Is Nutritious and Delicious.**

Remarkable results are secured by treating whole wheat with malt extract, which is a natural and well known food product. Malt-Vita, sometimes called "The Perfect Food."

In the preparation of Malt-Vita we have these two factors—(a) the whole wheat, steamed and cooked in a cleanliness and containing every food element necessary to the sustenance of the human body, (b) pure malt extract containing the nutrition of best selected barley in a readily digestible form, so nutritious and strengthening that doctors everywhere recommend it.

The malt extract, mixed with the cooked wheat, cooked in the starch of the wheat into maltose, or malt sugar, an active digestive agent. The result is a perfect food, rich in all the nutrition that builds up bone and blood, brain and muscle, healthy tissue and nerve force.

And Malt-Vita is good to eat. There's nothing like it, nothing that can take its place as a well mixed with the malt, the wheat is rolled into water-like flakes—every grain a little flake—and then baked in crisp, clean ovens under most intense heat. The ovens Malt-Vita comes great and brown, "done to a turn," the most delicious, the most healthful food in the world. All grocers, 10 cents.

and rings, were forwarded to the wife, and she identified them as her husband's. An attempt was made to collect \$2,500 insurance, and the suit was won, but the company failed before the Supreme court decided the matter.

Baxter returns rich. He made his find in the Transvaal. As soon as he was able he came back to America and to Minneapolis. His wife has left the city, and he is making every effort to get a clew to her whereabouts.

**ARCHIE WHITE**

Met Ernst and Hutton in Conference at Cincinnati But There is No Deal On.

Cincinnati, O., Nov. 15.—A conference lasting until after 6 o'clock in the evening took place between Archibald S. White of the Columbia company, and James C. Ernst and James M. Hutton in the latter's office. White has not progressed much in his negotiations for the leasing of the Cincinnati, Covington and Newport Light and Traction company's property. He is, however, like a patient fisherman who hopes that the finny tribe will nibble at the bait he has on his hook. Thus far Ernst has not shown an over-desire to swallow the bait, while Hutton takes the same view of the proposition as the president of the C. N. and C.

When seen at the St. Nicholas Mr. White was noncommunicative. He did not want to be interviewed. The following sums up what he had to say: "I have not made the C. N. and C. people any proposition. We are far apart in our views. There is no deal on. I have not been asked to put anything in writing. I am going away today, which would indicate there is no deal on, for if there was you don't think I would leave. I won't tell you anything, as I have nothing to say that will interest the public. What is the use of continuously talking about that bridge? I never was after the bridge. Others wanted me to buy it. I suppose they desired to unload. I am tired of talking about the C. N. and C. Don't you know of any other subject to talk about?"

Despite the denials of White concerning the negotiations for the C. N. and C. properties and the Suspension bridge, others insist that he is after both properties. He has been very solicitous as to the identity of the bridge stockholders.

Mr. White leaves today for St. Cloud, Minn., the home of his wife's parents. He does not expect to be back next week.

**ANOTHER WONDER OF SCIENCE**

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality, causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Columbus, O., Nov. 15.—J. R. Zimmerman, convicted former cashier of the Wooster National bank, was received at the penitentiary to serve two years for conspiring with Louis P. Ohliger, its former president, to wreck the institution.

A peculiar feature of Zimmerman's arrival was the fact that Ohliger, on account of his duties as a clerk in the hospital, was compelled to quiz Zimmerman and the meeting was very chilly. Zimmerman will be given clerical work. He will remain in the "idle house" until he goes to work. There are now 14 bankers in this prison.

## AFFIDAVITS FOR VENUE CHANGE

MRS. LINGAFELTER SAYS ALL THE JUDGES IN DISTRICT ARE PREJUDICED.

Frank Alexander Begins Suit for Damages Against Trolley Co. Court Notes.

In the case of the Homestead Building and Savings Bank company against Mrs. Mary J. Lingafelter, wherein George P. Webb, the receiver seeks to recover \$14,000 to apply on the amount she is alleged to have taken from the association. Mrs. Lingafelter has filed two affidavits, one of them being for a change of venue. According to the statutes, when either party to an action is a corporation and has over 50 stockholders, upon motion and showing of that fact the court must grant a change of venue to an adjoining county for the trial of the action. Mrs. Lingafelter sets up the fact in her affidavit that the Homestead Building and Savings company has more than 50 resident stockholders in Licking county.

The other is simply an affidavit disqualifying Judge Seward and Judge Coyner on the grounds of bias and prejudice. She also says that there is no other judge in the district who has not such bias and prejudice.

Action for Damages.

Frank M. Alexander has commenced suit in the Common Pleas court against the Columbus, Newark and Zanesville Electric Railway company for \$5000 damages for injuries alleged to have been sustained in a collision of an interurban car with a D. & O. railroad locomotive on the East Main street crossing on the evening of November 15, 1905.

Plaintiff says the defendant negligently and carelessly caused the car to run into the locomotive; that the car on which he was a passenger lurched forward, ran off the track, rolled and swayed to one side, by reason of which he was jerked violently from his seat and was thrown to the floor against the opposite side of the car with great force, and that he was badly injured about the back and hips. Hunter & Hunter, attorneys for plaintiff.

In Common Pleas.

Upon the convening of Common Pleas court Thursday the trial of the case of James Miller vs. W. B. Howell was resumed to the court and jury. The suit is brought to collect a promissory note in the sum of \$130. The defendant sets up a defense to the note claiming that he boarded Miller, who is an aged gentleman, and his uncle, and purchased certain clothing for him and other articles, and asks that the sum of \$500 be allowed him (Howell). He asks judgment for the difference between the \$130 note and \$500. The plaintiff claims that the board bill etc., was paid for by plaintiff to Howell in work and labor. TOBACCO SECRETS.

What Makes the Chico One of the Mildest and Most Enjoyable Cigars on the Market.

How many people, even among the most confirmed smokers, know what constitutes the difference between a strong and a mild cigar? It is simple enough. The strong product is so made that it burns badly, while a mild cigar is one that burns well—like the Wadsworth Bros. Chicos.

"These cigars," says J. W. Collins & Son, the local agents, "are made from a long Havana filler, carefully selected, with the best hand workmanship, and as they burn freely with a firm, perfect ash the result is a mild, pleasant and enjoyable smoke."

Six months ago the Chico was not known in Newark, but today it is the most popular cigar in the city, and is the favorite although it sells for but five cents. Smokers who have heretofore wanted only ten or fifteen cent goods should step into J. W. Collins & Son's and get a few Chicos. We know you will say, as do other fastidious smokers, that it is the mildest and most enjoyable cigar in the market.

## BIG GAS WELLS NEAR APPLETON

WATSON NO. 2 CAME IN WITH A FLOW OF THREE MILLION WEDNESDAY.

Flow of Six Million on Jewett Place. Central Ohio Gets Another—Several Now Drilling.

(Special to the Advocate.)

Appleton, Nov. 15.—Watson well No. 2 was drilled in Wednesday night on the Jasper Watson farm 1 1/2 miles south of Lock, and it has an estimated capacity of 3,000,000 cubic feet of gas per day. The well was drilled in by Broughton & Co., gas drillers, for the Bennington Oil and Gas company. The first well on this farm was a larger one, having a capacity of 6,000,000 cubic feet daily.

A well drilled in last week on the Jewett farm a short distance away has a capacity of 6,000,000 cubic feet and three other wells in the immediate vicinity are about ready to drill in. One located on the Amanda Korte farm, one mile east of this place, will come in about Tuesday or Wednesday of next week. A well on the Hatch farm, a half mile from the well which came in last week and another on the William Hall farm near by are about ready to come in. Well No. 3 is being drilled on the Squires farm, the first two having good capacities.

A well was drilled in on the D. L. Vanfossen farm Monday morning for the Central Ohio company. It is good for about three million feet daily.

## COACHMAN

No Longer Loved by the Indiana Heiress, Who Will Enter a Hospital, Then a Convent.

Chicago, Nov. 16.—Emma Bachman Howe, of Chesterton, Ind., heiress to \$500,000, who eloped with Gustave Christiansen, a coachman, and was found at Hobart, Ind., Sunday, has reached Chicago and with a relative, Mrs. A. J. Bowser of Chesterton, made arrangements for the former to remain at the hospital for treatment for nervousness following her recent experiences.

"I do not love Gustav any more," said Miss Howe, as she was led to a private room. "I am through with him. I do not want to see him again."

Dr. Charles O. Wittfogel, the family physician, is said to have assembled the men of Chesterton, who waited upon Christiansen and requested him to leave the place following the agreement of the girl to go to a hospital and afterward to a convent for a year.

Following the call of the men of Chesterton Christiansen is declared to have taken a train for Chicago.

John J. Schellick, patient in the insane hospital at Toledo, O., hanged himself.

## ASHBROOK DAY IN JOHNSTOWN

CELEBRATED IN A FITTING MAN-  
NER BY THE VILLAGE AND  
TOWNSHIPS.

Guests From Over the District and  
Speeches Made by Local and  
Outside Speakers.

Johnstown, O., Nov. 15.—Ashbrook Day in Johnstown was most fittingly celebrated yesterday and last night. The suggestion for celebrating the election of William A. Ashbrook to Congress came wholly from his friends and neighbors. These people took a pride in the fact that one of their citizens had been so deservedly honored and that their enterprising village could do nothing more becoming and appropriate than to demonstrate its appreciation of the honor by celebrating the event in a public manner. The affair was by no means a partisan one, and in all the demonstrations made there was a careful avoidance of any feature that would be offensive to Mr. Ashbrook's Republican neighbors.

Early in the day the farmers of the adjacent townships began to gather into the village and greet each other with the jolly handshake that demonstrated their enjoyment of the occasion. The Liberty township cornet band and a village drum corps were on hand early to enliven the occasion and their music was an entertaining feature throughout the day and evening. Improvised anvils were made to do the duty of a small cannon, which also did service in saluting the visitors.

A huge bonfire was constructed in one of the lots of Johnstown's burnt district, which lit up the village and surrounding country, and numerous bonfires were kept going in the streets throughout the evening.

Promptly at 7:30 p. m. the assembled crowd led by the band marched to the town hall, which was filled to overflowing and where the proceedings of the evening were conducted. At this meeting W. A. Aldorf, Esq., presided in a most creditable manner, and Mayor J. H. Mattingly made the address of welcome to the visiting guests of the village with equal grace.

Mr. Aldorf introduced the different speakers of the evening, the first of whom was Mr. Ashbrook, who related his experience in the campaign and expressed his gratitude to his neighbors and supporters in a feeling manner. Following him as speakers were Mr. Roderick Jones of Granville, Senator Vanover of Wooster, former Senator Hurst of New Philadelphia, J. H. Newton and Judge E. M. P. Brister of Newark. All of the speakers paid tribute to Mr. Ashbrook as an able, untiring and successful campaigner and whose candidacy had been so honorable and upright as to win him praise from right thinking people of all parties and classes. The people of the village of Johnstown, too, came in for encomiums from all the speakers for the hospitable manner in which all the guests were received and cared for.

Mr. Cliff Rosebraugh entertained the audience with songs and a brilliant recitation. Two well known veterans surprised the visitors with an exhibition of clog dancing that brought down the house, and Mr. Vincent Lake, who was called out, added rare spice to the occasion.

All in all it was a fitting, jollifying celebration of Ashbrook Day in Johnstown, and an event that will long be remembered.

DON'T EXPERIMENT.

You Will Make No Mistake if You Follow This Newark Citizen's Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are all symptoms of kidney trouble, and you should seek a remedy which is known to cure the kidneys.

Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in Newark. Follow the advice of a Newark citizen and be cured yourself.

Miss Mary E. Manville, of 24 South Fourth street, Newark, O., says: "Doan's Kidney Pills are the best thing I know of for rheumatic troubles. I got more relief out of one box than from all the other remedies I have ever used. I had suffered a great deal from rheumatism in my loins and back. It caught me first in one place and then in another, but was always present somewhere. Nothing seemed to give any relief until I got Doan's Kidney Pills at Crayton's drug store. Apparently they drove all the rheumatism out of my system for I have never had a return of the trouble and that was over five years ago. My husband has also used Doan's Kidney Pills with good results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

## PRESENT FOR MR. F. A. BOUTELLE

RETIRED SUPERINTENDENT RE-  
MEMBERED BY MEN OF  
THE ROAD.

Fine Traveling Bag With All the Ac-  
cessories Given Him on Wed-  
nesday Night.

Mr. F. A. Boutelle, who for the past three years and a half has been the efficient and accommodating superintendent of transportation of the Indiana, Columbus and Eastern Traction lines, and who has rendered his resignation to take effect November 15 was given the surprise of his life on Wednesday evening. Since Mr. Boutelle has been at the head of the transportation department of the interurban lines centering in Newark, he has made friends with every employee of the company, from the humblest to the highest official, and his resignation is sincerely regretted, especially by those in the transportation department with whom he was so closely affiliated. In order to give fitting expression to their kind feeling for Mr. Boutelle, the employees of the transportation department on Wednesday night, through Mr. F. J. Moore, superintendent of the city lines, who succeeds Mr. Boutelle as superintendent of transportation presented Mr. Boutelle with a fine Gladstone traveling bag, together with all accessories, including a set of military hair brushes, soap box, soap brush, combs, mirror, etc. Mr. Boutelle at first was unable to understand just what was transpiring, but finally "caught on" and responded in a fitting manner, thanking the donors for their beautiful token of appreciation and good will. Mr. Boutelle, who was visibly affected, said that it was the first time in his life that he had been placed in such an embarrassing position.

Mr. Boutelle will leave Saturday for Tacoma, Wash., where he has accepted the superintendency of the Seattle & Tacoma Interurban railway with headquarters in Tacoma. The road is 90 miles in length and is considered one of the best paying roads on the Pacific slope.

## JAP WARSHIP

Satsuma Biggest in World Launched  
Thursday Embodies All Lessons  
of Last War.

Tokio, Nov. 15.—The Satsuma, the biggest battleship in the world, which was launched today, embodies all the lessons of the last war. The wood-work on board has been reduced to a minimum; she is fitted with elaborate fire apparatus, and her upper works are kept as clean of topmammer as possible. Her details in the main follow those of the British battleship Dreadnaught, whose steaming capacity she is expected to exceed. As the Satsuma has been built by Japanese labor exclusively, her launching was regarded as a great historical event, the emperor and crown prince of Japan being present.

## Freight Car Famine.

Manufacturers and shippers of all kinds in all parts of the country report that the freight car famine becomes worse each day instead of better and they prophesy that unless relief comes soon an advance in price of many of the staple commodities is bound to result. Owing to the shortage of cars it is reported that the Wehrle Store Works of this city have recently made several large shipments of stoves in refrigerator cars.

## NEWARK BOY IS ASSAULTED AND ROBBED OF \$5.39

(Special to Advocate.)

Cincinnati, O., Nov. 15.—After being assaulted and robbed by three boy bandits, Waldo Koppes, aged 16, of Newark, returned to the Lockman Hotel last night. Being homesick he gave up his place, met three boys who said they were going to Newark, and they persuaded him to go to Covington, Ky., where the quartet boarded a C. & O. train and alighted at Ghent. There it is claimed, the boys assaulted Koppes and robbed him of \$5.39. The youthful highwaymen have not been apprehended.

## FATHER ACCUSED.

Louisville Girl Tells Story of the  
Murder of Her Mother.

Louisville, Ky., Nov. 15.—One of the most remarkable murder mysteries in police annals was apparently cleared up by the confession of the 15-year-old daughter of Mrs. Virginia Ely, the victim. Anna Ely, the daughter, confessed to the police that her father had murdered her mother and that she had hid the weapon, a knife, and aided him in concealing his guilt for over a week, despite the oracles of continued "sweating" by officers for a week. The confession came just as the police and newspapers had apparently given the case up as hopeless. Mrs. Ely was murdered November 7.

## NEW CURE FOR RUPTURE

New Scientific Appliance, Always a  
Perfect Fit—Adjustable to Any  
Size Person—Easy, Comfortable,  
Never Slips, No Obnoxious Springs  
or Pads—Costs Less Than Many  
Common Trusses—Made for Men,  
Women or Children.

I Send It On Approval—You Wear It  
—If You Are Not Satisfied, I  
Refund Your Money.

I have invented a rupture appliance that I can safely say, by 30 years' experience in the rupture business, is the only one that will absolutely hold the rupture and never slip and yet is cool, comfortable, conforms to every movement of the body without chafing or hurting and costs less than many ordinary trusses. I have put the price so low that any person, rich or poor, can buy, and I absolutely guarantee it. I make it to your order—send it to you—you wear it, and if it

Jas. Britton, Cured of Rupture by  
C. E. Brooks.

doesn't satisfy you send it back to me and I will refund your money. This is the fairest proposition ever made by a rupture specialist. The banks or any responsible citizen in Marshall will tell you that is the way I do business—always absolutely on the square.

Here is what Mr. Jas. Britton, a prominent manufacturer of Bethlehem, Pa., writes:

"C. E. Brooks, Esq. Dear Sir—I have been ruptured six years and have always had trouble with it till I got your appliance. It is very easy to wear, fits neat and snug, and is not in the way at any time, day or night. In fact at times I did not know I had it on. It just adapted itself to the shape of the body and clung to the spot no matter what position I was in. It would be a veritable God-send to the unfortunate who suffer from rupture, if all could procure the Brooks Rupture Appliance and wear it. They certainly would never regret it. My rupture is all healed up and nothing ever did it but your appliance, Jas. Britton."

If you have tried most everything else, come to me. Where others fail is where I have my greatest success. Write me today and I will send you my book on Rupture and its Cure, showing my appliance and giving you prices and names of people who have tried it and been cured. It is instant relief when all others fail. Remember I use no salves, no harness, no ties. Just a straight business deal at a reasonable price.

## OHIO MAGAZINE

Legend of Black Hand One of the In-  
teresting Features of November  
Number Just Out.

The Ohio Magazine is making long strides in public favor by publishing every month an illustrated periodical of which every native born Ohioan may well be proud.

The cover design for November is a beautiful drawing in colors by E. H. Hartke, entitled "A Toast to the Turkey."

The leading article is "The Romance of the Dry Cave," by Lena Kline Reed of Portsmouth, beautifully illustrated by E. H. Hartke, staff photographer of the Ohio Magazine. The story relates to an old Indian romance of Highland county and the pictures illustrate the famous caves near Bainbridge.

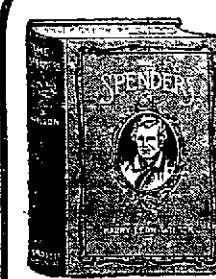

Belle Case Harrington contributes a valuable article entitled "A Moral Sanatorium: How the City of Cleveland Cares for its Frying Boys," which is a study of the best method of reclaiming the erring youth of our larger cities.

May Lowe contributes a valuable historical article on "The Logan Elm," Prof. C. F. Martzoff contributes the "Legend of Black Hand" in his series of Ohio legends now running in the Ohio Magazine. The article is illustrated by beautiful engravings of the famous Black Hand Rock on Licking Narrows.

An article of special interest to all persons concerned in metropolitan problem is "The Best Street Railway System," by Conrad Wilson. The article is copiously illustrated.

## NEW SHERWOOD ALMOST READY

TWENTY OF 63 ROOMS IN BLOCK  
CORNER EAST MAIN AND  
FIRST ENGAGED.

Dr. H. D. Rank has secured one of  
the two Apartments Fitted Up  
for Physicians.

The new Sherwood, being erected  
at the corner of First and East Main  
streets by the Sherwood Improve-  
ment company, is now very near  
completion and will be ready for oc-  
cupancy by December 15. Up to the  
present time 20 of the 63 rooms have  
been engaged and Dr. H. D. Rank has  
secured one of the two apartments to  
be fitted up for offices of physicians.  
The rooms are to be rented for \$5  
and \$15 singly or in suites.

The work on the new structure has  
progressed at a very satisfactory  
rate of speed, and at present the  
workmen are engaged in finishing the  
woodwork of the interior. The work  
on the two top floors has been com-  
pleted, while the flooring of the lower  
stories is being put in. The rooms are  
to be furnished or unfurnished.  
Those desired furnished will be  
fitted in mahogany furniture. The  
entire building will be lighted by gas  
and electricity from beautiful chan-  
delliers made after a special design.

An automatic elevator, a device  
which is thoroughly "fool proof" will  
be operated from the top story to the  
basement. The elevator is an unusu-  
ally clever affair and a new invention  
which, however, has had sufficient  
tests to guarantee safety. The "lift"  
is so arranged that by pressing a but-

ton from a certain floor, the car will  
be brought at once to the passenger,  
but the door leading into the shaft  
cannot be opened until the car is at  
that floor. Once inside the car the  
passenger must lock the door leading  
into the shaft before the elevator will  
leave the landing. Then, by pressing  
a button opposite the floor number  
desired, the elevator is stopped and  
the door unlocks. By this device  
there is absolutely no chance for ele-  
vator accidents, and, although no at-  
tendant is required, the Sherwood  
managers will probably have one  
there for the accommodation of the  
tenants.

House maids will be furnished by  
the company for the purpose of car-  
ing for the various apartments ac-  
cording to the desires of those about  
the building. Linen will be furnished  
and laundered as is the case in the  
modern apartment structures in the  
larger cities.

The dining room in the basement  
of the Sherwood will be managed by  
Mrs. Marvonne Moore and special ef-  
forts will be exerted to please the  
tenants who take their meals in the  
general eating room.

An attractive smoker and lounging  
room is being fitted in the basement.

The new structure is very attrac-  
tive throughout and has been ar-  
ranged with the utmost care for the  
safety and convenience of the ten-  
ants. The beautiful marble en-  
trances and stairway alone help to  
make the structure one of the most  
modern and complete in design of  
any in the state.

### Freight Train Burns.

Houston, Tex., Nov. 15.—An entire  
freight train consisting of seventeen  
cars, fifteen of which were loaded

the Santa Fe railroad, four miles  
south of Brenham. The damage is  
estimated at \$100,000.

## DR. BARNES IS THROWN FROM RIG

PHAEON STRUCK LARGE STONE  
AT END OF GRANGER ST.  
AND OVERTURNED.

M. P. Ashbrook's Boy Injured by Fall  
—Denison's Board of Control.  
Granville News.

(Special to the Advocate.)

Granville, Nov. 15.—Dr. E. J. Barnes  
had the misfortune to meet with a  
very painful accident which has been  
the means of confining him to his  
home just east of town for several  
days. He was returning from the  
country, where he had been to see a  
patient, about 8 o'clock in the even-  
ing. The night was very dark, and  
just as he was entering the village at  
the north end of Granger street, his  
phaeton struck a large stone at the  
side of the road, and the vehicle was  
overturned. Dr. Barnes was thrown  
to the ground with great force and  
sustained a number of severe bruises.  
His hip was also badly injured. Dr.  
Pollett attended him.

The seven-year-old son of Mr. and  
Mrs. M. P. Ashbrook of this place,  
had a narrow escape from death. The  
little fellow was riding on a wagon,  
partly loaded with lumber. At the  
corner of Broadway and Plum street  
in attempting to jump from the  
wagon, he slipped and fell under the  
wagon. He had presence of mind to  
throw his head back and escape the  
wheels which just grazed his face. His  
right arm was fractured and his face  
was badly bruised.

At the last meeting of the Board of  
Control of Denison University, Mr.  
Earl Forte, '09 was made manager of  
the baseball team for 1907. Mr. H.  
M. Huffman, '08, was given the track  
managership for 1907. Mr. Will Shep-  
pard, who had been elected to the of-  
fice of baseball manager, finding it im-  
possible to serve in this position along  
with his other work, resigned, and Mr.  
Forte was elected to fill the vacancy.

The male members of the Presby-  
terian church will give a chicken pie  
supper in the parlors of the church  
on Wednesday evening, November 21.  
The men will do all the serving, and  
a cordial invitation is extended to  
members of all other denominations  
to attend and get acquainted with Rev.  
David Dempster, who is temporarily  
filling the pulpit of the church.

Prof. C. E. Goodell, whose address  
on "The Historical Training of the  
Twentieth Century Minister" was re-  
ceived with so much favor at the  
Cleveland Anniversaries, repeated the  
address at the request of a number of  
admirers on Wednesday evening be-  
fore the Denison Ministerial Associa-  
tion in Sherwin Hall. There was a  
good attendance and the address was  
very much appreciated.

The Franklin Literary society will  
give a reception Friday night at Char-  
lie Martin's restaurant in honor of her  
new men.

William H. Ellor, '16, has left col-  
lege for the rest of this semester, and  
possibly for the rest of the year. His  
father is ill and wishes to have all the  
family near him.

On Monday evening Mr. George  
Bartlett entertained very pleasantly for  
Prof. Brumbaugh's Sunday school class.  
All had a splendid time.

Invitations are out for a banquet to  
be given by the boys of the Union  
club on Friday evening, Nov. 30.

The Irving Thanksgiving extra will  
be given on Tuesday evening, Nov. 27.

The girls of Kappa Phi sorority are  
pleased to know that they will be in  
their new house by Thanksgiving.

The Phi Gamma entertained a few  
friends at dinner Wednesday evening.

Mr. and Mrs. Fred Moore of Indi-  
anapolis are visiting their parents,  
Mr. and Mrs. Charles Moore.

### NEXT SATURDAY'S GAME.

Granville, O., Nov. 15.—The foot-  
ball squad of Denison has been in-  
cluding in heavy practice for some  
days in anticipation of the game  
with O. W. U. on Beaver field, at  
Granville, Saturday afternoon. The  
members of the team are all in fine  
trim for the battle and expect to  
make a good showing.

## REV. J. H. HAMILTON DIES AT MT. VERNON

Former Licking County Pastor Had  
Officiated at 2000 Funerals and  
1492 Weddings.

Mt. Vernon, O., Nov. 15.—The  
Rev. Joseph H. Hamilton, one of the  
oldest Methodist Protestant ministers  
in this part of the state, died this  
morning of paralysis. The deceased  
minister officiated at 2000 funerals  
and 1492 weddings in Knox county  
alone. Mr. Hamilton was formerly a  
pastor at Steubenville, Circleville,  
Lancaster and Brownsville, Licking  
county.

### DISTINCTION IN A SUIT AND OVERCOAT

A handsome stylish suit  
plays a great part in a  
man's appearance.  
It is time that a man may  
be a perfect gentleman and  
still be dressed in an ill-fit-  
ting, poorly made suit of  
Clothes or Overcoat, but  
the world is sure to mis-  
judge him.

While clothes do not  
make the man they in-  
fluence the first and last  
impression rendered concern-  
ing him.

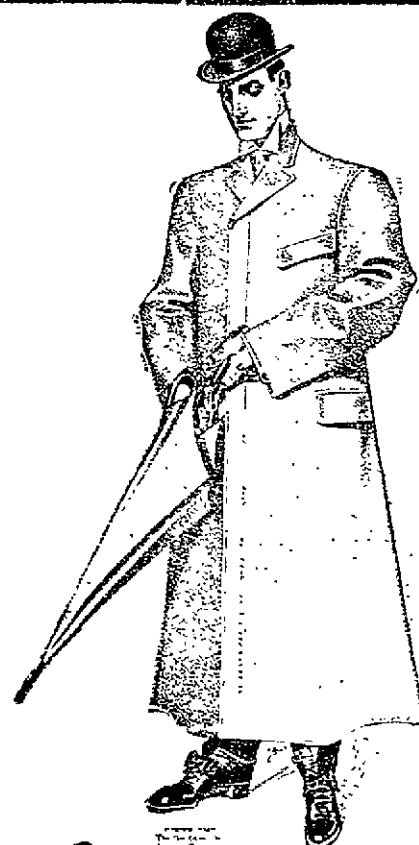

We've Suits and Overcoats From  
The Shops of the World's Best  
Makers.

Fairly priced, when we  
name such reasonable fig-  
ures as

\$5, \$7.50, \$10.00, \$12.50, \$15 and \$20

You are very welcome to overhaul them—get a line on the  
exclusive patterns and try as many styles as you like. Make  
this Your Clothing Store and you'll never have clothes disap-  
pointments.

### NEW ROAD LAW

Which Will Go Into Effect on De-  
cember 1—Some of Its  
Provisions.

The new road law which will go  
into effect December 1, does away  
with the election of road supervisors  
and persons to take their places will  
hereafter be appointed by the town-  
ship trustees. Each township will be  
divided into not more than four dis-  
tricts, and a road superintendent will  
be appointed for each district. Under  
his direction the roads are to be  
improved, the two days labor done,  
and the township road tax worked  
out. But the superintendent at all  
times must work under the direction  
of the trustees, who may discharge  
any superintendent when they see fit.  
These superintendents are to be paid  
not more than 25 cents per hour or  
less if the trustees so decree. The  
superintendent may employ laborers  
and pay them not more than 17 1-2  
cents per hour, and for a team not to  
exceed 35 cents per hour. Every male  
between the age of 21 and 55 except  
soldiers, members of the National  
Guard, etc., must work out two days  
or pay \$3 in money. The work is to  
be done between April 15 and July 1.

## BRAKEMAN HENTHAW IS PAINFULLY HURT

Henry Henthaw, a young man em-  
ployed as a brakeman on the Panhan-  
dle, was painfully injured Thursday  
forenoon by falling from the caboose  
of his train.

Mr. Henthaw had signalled his train  
to go ahead and attempted to get on  
the caboose. He missed his footing  
and was thrown against the car, badly  
bruising one of his hips so that it was  
feared some bones had been fractured.  
He was taken to his boarding house,  
18 Dewey avenue, in Bowers & Cross  
Bros.' ambulance.
